Subject: TD Negotiations  
"A" Follow-on Program  
Contract FI-5777

Dear Art:

This letter will serve to confirm the agreements reached during the negotiations meeting held at FSDS on 6 December 1963 on the three TD's submitted to your office.

The three TD's, consisting of (1) Temperature Sensor Change; (2) 2/4 m/s Shutter Timer; (3) Modification of Fixture and Exit Chute to Accommodate 1 $\frac{1}{2}$ " Attitude Change were negotiated in the total amount of [REDACTED]. Further, the associated cost for the incorporation of changes to accommodate a six-day mission in the amount of [REDACTED], contained within the negotiated cost structure of the present fixed price contract, is no longer applicable and is therefore subject to deletion from the total contract price.

It was agreed, however, that the [REDACTED] negotiated for the incorporated TD's would be offset against the credit to this contract of [REDACTED] resulting in a net credit to the Government of [REDACTED]. This amount will be held in abeyance pending definitization and final closeout of this fixed price contract, and should additional TD's result during the course of performance, any additional cost associated with the TD's would be offset against the existing credit established.

Thank you for your cooperation in this matter.

Very truly yours,

[REDACTED]

STATINTL
